SKYWARD AND BEYOND
NOUVELLE-AQUITAINE LAUNCHES TALENT AND INNOVATION.

Nouvelle-Aquitaine has more than **500 industrial establishments** in **aeronautics and space** sectors with many flagships sustaining a **network of dynamic and efficient SME's**. The Region's ambition is to build a **competitive, innovative, carbon-free and sustainable industry** in its territory, from factory to use. This is materialised by a proactive policy in favour of the historical players of the supply chain to support their **environmental, energy or digital changes** while maintaining their competitiveness, but also of new entrants who are setting up new industries in **Nouvelle-Aquitaine**. The Region is also a **territory of excellence** in many research areas (propulsion, electronics, high-performance materials, digital, etc.) and supports training players to help create **the jobs of tomorrow**.
